Alexey Li

Junior Java developer/ Junior Full-stack developer

I have developed a deep interest in the field of IT over the years and I am currently undergoing Java developer training at INTEC in order to focus on software development as my area of expertise. Through this training, I have honed my skills in teamwork, problem-solving, time management, and maintaining a high level of resilience in stressful situations. I am driven by my proactive approach and an insatiable curiosity to learn, which constantly fuels my desire to enhance my efficiency on a daily basis.
